

# AUSTIN'S URBAN FOREST PLAN

## Public Engagement Schedule | Updated 07-24-13

### In a Nutshell:

Engagement Activity – Leaf the Tree

### Main Question

“What should be done for the trees and vegetation in our public spaces?”

Responses will be recorded on leaf shaped sticky notes and entered into a database. These raw comments will be provided on the Urban Forest Plan webpage. Information from this process will influence the plan and be included in the plan.

Leaf the Tree Activity will also be at the August Community Workshop & Open House event.
